

Aquamot Trend outboard 1.8 kW

Aquamot manufactures electric outboard boats with a tiller and built-in battery. 1.8 kW of power is ideal for boats with a capacity of up to about 1.8 ton and functions fully noiseless and emission-free.

Comparable to
5.5 HP
gasoline engine

Specifications	
Input power	1.8 kW
Kill switch	Yes
Comparable power (HP)	5.5 PS
Shaft type	Short/normal shaft
Thrust	94 lbs
Shaft length	63 cm
Voltage	47.1 V
Control	Tiller
Integrated battery	Yes
Speed control	Stepless
Integrated battery capacity	0.6 kWh
Saltwater resistant	Yes
Noise level	Silent
Propeller	Composite Plastic
Rotations per minute	1500 rpm
Tilting mechanism	Manual
Weight	14.6 kg
Trimming mechanism	Manual
Display	Digital battery display
Tiltable tiller	Yes
